Charter presentation of new Rotary club  
Rotary Club Cochin Heritage

Celebrated on the first day of Medam or the Malayalam month or between the months of April and May of the Gregorian calendar, Vishu symbolizes the beginning of the spring season. Vishu, a Hindu festival, is celebrated in Kerala as the harvest festival and the astrological New Year of the Malayalis. Vishu indicates the movement of the sun to Aries or the Mesha Rashi and marks the day from which the farmers begin the ploughing of land and other agricultural activities.

The Vishu Kani consists of a sacred ceremonial preparation of all auspicious goods considered to be the omen of good luck and prosperity. These goods include coconut, betel leaves, Arecanut, yellow Kani Konna flower, Kanmashi kajal, raw rice, lemon, golden cucumber, jack fruit, a metallic mirror, a holy book, cotton dhoti and coins or currency notes. All these articles are collected in a bell shaped vessel made of metal which in Malayalam is called "Uruli".
